ABSTRACT

Data are provided on fall 1977 enrollment in American colleges and universities. Information is grouped under four major categories: summary tables, enrollment by level of institution, enrollment by state, and enrollment by institution. The data were obtained from the 3,130 two-year and four-year public and private colleges and universities and their branches included in the National Center for Education Statistics' "Education Directory: 1977-78 Colleges and Universities." Race/ethnic and major field of study data were not collected in fall 1977. Background information on the survey population, questionnaire editing procedures, and a reproduction of the survey instrument are appended. Findings are summarized as follows: total enrollment in fall 1977 in all institutions of higher education increased 2.6 percent over the previous year; the trend toward increased enrollment of women continued in fall 1977; there were greater increases in part-time than in full-time enrollment in both public and private institutions; at public colleges and universities, there was an increase of 2.9 percent in first-time freshman enrollment in 1977, while the opposite was true for private institutions, which experienced a slight drop (0.1 percent) in first-time freshman enrollment. Foreword

This report parallels the 1976 edition except that race/ethnic and field of study data are not included since these data are now collected in alternate years by the National Center for Education Statistics (NCES) for the Office for Civil Rights (OCR) through the annual fall enrollment survey. Since 1976 was the first year in which these data were collected for OCR, the schedule calls for race/ethnic and field of study data to be collected again in fall 1978. Although there are no ethnic and field of study data in this report, all other enrollment data collected in fall 1977 are available either in this publication or directly from NCES. Tables not included in this report are identified along with appropriate instructions to the reader for obtaining copies through NCES's Division of Statistical Services (DSS). Persons interested in the complete 1977 fall enrollment data file may obtain a computer tape costing $94 or $120, depending on density, by writing or calling:

Introduction

The data for this report were obtained from the 3,130 2- and 4-year public and private colleges and universities and their branches included in NCES' *Education Directory: 1977-78 Colleges and Universities.*

Following the same format used in the 1976 fall enrollment in higher education report, the tables displaying the data in this report are grouped together under four major categories:

I. Summary tables
II. Enrollment by level of institution
III. Enrollment by State
IV. Enrollment by institution

Because race/ethnic and major field of study data were not collected in fall 1977, chapters containing these data are not included in this publication as they were in the 1976 report. This information will be collected again in fall 1978 and will be reported in the final 1978 report. Also, because of space limitations, some of the tables generated by the survey are not included in this report. For these tables, footnotes indicate to the reader what data are available along with appropriate instructions for obtaining copies of the complete tables.

In addition to one institutional listing with summary data, the tables in this report are aggregated by State and by control and level of institution. A number of simple tabulations and graphs present selected enrollment data in the sections which follow.

Background information on the survey population is presented in appendix A, together with questionnaire editing procedures. A reproduction of the survey instrument appears in appendix B.

OVERVIEW

After an enrollment decline of 1.5 percent in fall 1976 (the first such decline since 1951), enrollment in the Nation's colleges and universities is again on the increase. Total enrollment in fall 1977 in all institutions of higher education increased 2.6 percent over the previous year (table I). This overall increase represents a headcount of 11,415,020 full-time and part-time students.

This year's enrollment of part-time students and new freshmen showed the most dramatic changes over 1976 figures (table II and table IV). At public colleges and universities, where the number of new students dropped a dramatic 9.0 percent in the fall of 1976, there was an increase of 2.9 percent in the fall of 1977

(table IV). The opposite was true for private institutions, which experienced a slight drop (0.1 percent) in first-time freshman enrollment in 1977 (table IV). However, the increasing freshman classes in preceding years helped private colleges and universities continue their growth in total enrollment, which was up 4.1 percent in fall 1977, compared with 2.2 percent at public institutions (table I).

The trend toward increased enrollment of women continued in fall 1977. For all institutions surveyed, the growth in enrollment of women was 5.8 percent, compared with a decrease of 0.2 percent in the number of men enrolled (table I). Women represented 48.8 of all enrollment (figure C) and 51.8 percent of first-time freshman enrollment (table IV).

There were greater increases in part-time than in full-time enrollment in both public and private institutions (table II). For all public institutions, the average increase in part-time enrollment was 4.5 percent, although public universities reported a decline of 4.7 percent. Private institutions showed an increase of 5.4 percent (table II).

CONTROL AND LEVEL OF INSTITUTION

During 1977, enrollment increases were recorded for all control/level categories except public universities, which showed a decrease of 0.5 percent (table II). Overall, 2-year institutions showed the greatest increases, with 10.2 percent for private and 3.9 percent for public 2-year schools (figure A). The second largest enrollment increase occurred in other 4-year institutions with 4-year private enrollment higher than public (3.9 percent and 2.0 percent). While private universities had a 3.3 percent increase in enrollment, public universities showed their second decrease (0.5 percent) in 2 years (figure A). With all figures combined, enrollment at private institutions increased at nearly twice the rate of public institutions, 4.1 percent as opposed to 2.2 percent (figure A).

In terms of total enrollment in both the public and private sectors, other 4-year institutions were first with 39.6 percent, 2-year institutions were second with 35.7 percent, and universities accounted for the remaining 24.7 percent (figure B).

Viewed over time, enrollment patterns have varied considerably among the different types of institutions. University enrollment dropped significantly between 1972 and 1977 while enrollment at 2-year institutions increased. For other 4-year schools, enrollment remained relatively constant with only one major increase of 3.3 percent from 1972 to 1973 (figure B).

SEX

In 1977 the margin of male over female enrollment was 2.4 percent, down from 5.4 percent in 1976 (table I). This pattern of higher rates of increase in female enrollment over that of males is illustrated in figure C. In 1972 the gap was 13.5 percent, with males representing 56.7 percent of enrollment and females 43.3 percent. By 1977, just 6 years later, the male percentages of total enrollment was down to 51.2 and the female up to 48.8.

While the largest increase (7.3 percent) in female enrollment was in private institutions, public institutions also contributed markedly to the overall gain (5.5 percent) from 1976 to 1977 (figure D). The increase was particularly marked in 2-year institutions (15.5 percent in private and 8.9 percent in public schools).

Male enrollment declined for the second year in a row with a 0.2 percent drop in 1977 (figure D). This decrease was particularly acute in public 2-year colleges and universities (0.9 percent and 1.8 percent). Only private 2-year schools showed an appreciable gain in male enrollment (3.9 percent).

ATTENDANCE STATUS

Part-time enrollment in the Nation's colleges and universities increased at a faster rate in 1977 than did full-time enrollment (4.6 and 1.4 percent, respectively) (table II). Both full- and part-time enrollment had decreased in 1976, full-time at a slightly faster rate (1.7 percent) than part-time (1.1 percent).

The only institutions which showed a decline in part-time enrollment in 1977 were public universities (4.7 percent) (figure E). All other institutions had increases in part-time enrollment, ranging from 7.6 percent for public 2-year institutions to 2.4 percent for public other 4-year institutions. The 6.5 percent increase in part-time enrollment in private 2-year institutions was particularly noteworthy because of the 16.2 percent decrease of the preceding year. The increases in public other 4-year institutions and private universities (2.4 and 3.7 percent, respectively) also followed decreases in part-time enrollment in 1976.

Gains in full-time enrollment, though less dramatic, occurred in all control/level categories with the one exception of public 2-year schools, which showed a 1.3 percent decrease (smaller, however, than the 6.1 percent decrease in 1976). Their private counterparts, on the other hand, showed substantial increases in both years (5.2 percent in 1976 and 11.1 percent in 1977).

Of particular interest is the fact that no private institutions had any enrollment decreases in either

attendance status category. Only public institutions experienced enrollment decreases in 1977.

It is important to note, however, that though larger increases were recorded for private institutions in fall 1977, the private sector enrolls only 22.0 percent of all higher education students while public institutions enroll 78.0 percent (table II). Thus, comparisons of enrollment changes in public and private institutions must be viewed in the context of overall enrollment.

The contrast between school attendance at the undergraduate and graduate levels is quite striking as figure F graphically illustrates. From 1974 to 1977, the ratio of full-time to part-time undergraduates has remained constant with the majority of students enrolled full-time for each of the enrollment years. For graduate enrollments, the attendance pattern is reversed. More part-time than full-time students attend graduate school although full-time enrollment has been increasing and part-time enrollment decreasing since 1974.

ENROLLMENT CATEGORY

When total enrollment in higher education increased in 1977, the number of students enrolled at all levels of higher education also increased (table III). Unclassified students continued to show the largest increase in enrollment–4.8 percent for 1977 (although this is much lower than the 1976 increase of 18.2 percent) (figure G).

More significant is the 0.1 percent increase in graduate enrollment which followed a 14.1 percent decrease in 1976. A similar, though more moderate pattern exists for undergraduate enrollment, which increased by 2.7 percent in 1977 after a 2.2 percent decrease in 1976.

The first-professional category remained relatively stable with a 0.8 percent increase in 1976 and 2.8 percent increase in 1977.

Among males, undergraduate and graduate enrollments were down in 1977 (0.4 and 0.9 percent, respectively). Only among unclassified students did males show an appreciable gain (1.9 percent) for 1977. The gains for women are more impressive. More than 200,000 more women enrolled at the undergraduate level in 1977 than in 1976. However, women's greatest impact was at the first-professional level, where their enrollment increased by 9.9 percent in 1977 (table III). Women's increase in enrollment at the graduate level, though small (1.3 percent), was significant in light of their 14.2 percent decline in the previous year.

Undergraduates constituted a relatively constant proportion (slightly more than three quarters) of all students enrolled in higher education from 1974 through 1977 (figure H). The proportion of first-professional students also remained constant, although at a much lower level (between 2.2 and 2.3 percent). Over the same period, the number of students labeled as unclassified steadily increased while the number of graduate students decreased.

Despite women's numerical enrollment gains, they outnumbered men in only the unclassified category–53.6 percent compared to 46.4 percent for men (figure I). By contrast, women constituted less than one quarter of first-professional enrollments, although, as figure J shows, their representation in that category increased 12.5 percent since 1972.

First-Time Freshmen

The enrollment of first-time freshmen entering institutions of higher education in fall 1977 increased by 2.3 percent after a decrease of 6.5 percent in fall 1976 (table IV). This increase was greater in public than in private institutions. All types of public institutions

showed increases in first-time freshmen with the largest increase (3.6 percent) reported among other 4-year schools (table IV).

The number of first-time freshmen entering privately controlled institutions decreased in 1977 for both universities (4.0 percent) and other 4-year colleges (0.9 percent). Only 2-year private institutions showed an increase (8.7 percent) (table IV). Figure K shows trends in first-time freshman enrollments by level of institution. Two-year institutions showed increases from 1972 through 1975 with a leveling off in 1976 and 1977. Universities, on the other hand, showed decreases from 1972 through 1974 and a stable enrollment level the remaining 3 years, 1975 through 1977. Other 4-year institutions showed little change in first-time freshmen enrollments from 1972 to the present.

The number of women first-time freshmen increased by 5.5 percent in 1977 while the number of men decreased for the second year in a row (down 1.0 percent in 1977 and 11.7 percent in 1976) (figure L). Both full- and part-time enrollment of first-time freshmen increased in 1977 with the larger increase (4.3 percent) occurring among part-time students (table IV). This overall increase in both attendance status categories in 1977 is encouraging since both categories had shown decreases in 1976 (5.5 percent for full-time and 8.9 percent for part-time) (table IV) (figure L).

NOTE.--CURRENT ENROLLMENT DATA COULD NOT BE OBTAINED FOR 2 OF THE 3,130 INSTITUTIONAL UNITS IN THE HIGHER EDUCATION STATISTICAL UNIVERSE REPRESENTED IN THIS REPORT. THESE INSTITUTIONS ARE: GOLDEN GATE BAPTIST SEMINARY (CALIFORNIA), 1976 ENROLLMENT: 497; AND YESHIVATH VIZHITZ (NEW YORK), 1976 ENROLLMENT: 97.

THREE OTHER INSTITUTIONS HAVE NOT BEEN INCLUDED IN THE TABULATION FOR THE FOLLOWING REASONS; THE SAN FRANCISCO COMMUNITY COLLEGES CENTER SYSTEM HAS ENROLLMENT WHICH IS TOTALLY NON-CREDIT ADULT EDUCATION AND IS THEREFORE NOT APPLICABLE TO THIS REPORT. THE INTERNATIONAL CORRESPONDENCE SCHOOLS CENTER FOR DEGREE STUDIES HAS ENROLLMENT COMPRISED SOLELY OF CORRESPONDENCE STUDENTS AND IS ALSO NOT APPLICABLE TO THIS REPORT. THE COLEGIO CESAR CHAVEZ REPORTED 0 ENROLLMENT FOR FALL 1977.

[1] INCLUDES STUDENTS WHOSE PROGRAMS OF WORK CONSIST WHOLLY OR CHIEFLY OF WORK NORMALLY CREDITABLE TOWARD A BACHELOR'S OR HIGHER DEGREE PLUS STUDENTS IN PROGRAMS REQUIRING 1, 2, OR 3 YEARS OF COLLEGE WORK WHICH ARE DESIGNED TO PREPARE FOR IMMEDIATE EMPLOYMENT RATHER THAN AS THE FIRST 1, 2, OR 3 YEARS OF A BACHELOR'S DEGREE PROGRAM. ENROLLMENTS FOR THE COMMUNITY COLLEGE OF THE AIR FORCE (CCAF) ARE NOT INCLUDED IN THE 1976 TOTALS, SINCE CCAF DOES NOT OFFER CLASSES ITSELF. STUDENTS TAKING CLASSES THROUGH THIS PROGRAM ARE INCLUDED IN ENROLLMENT COUNTS FOR THE INSTITUTIONS IN WHICH THEY ARE ACTUALLY TAKING CLASSES. HOWEVER, THE 1975 TOTALS ON THIS TABLE DO INCLUDE 19,957 REGISTRANTS AT CCAF. WHEN THIS FIGURE IS REMOVED FROM THE 1975 BASE, THE NET EFFECT IS TO REDUCE THE DROP IN TOTAL ENROLLMENT FROM 1975 TO 1976 FOR ALL INSTITUTIONS FROM 1.5 PERCENT TO 1.3 PERCENT AND FOR 2-YEAR INSTITUTIONS FROM 2.1 PERCENT TO 1.5 PERCENT.

[2] A FIRST-TIME STUDENT IS DEFINED AS A NEW FRESHMAN (IN THE FALL TERM) WHO HAS NEVER PREVIOUSLY BEEN ENROLLED IN AN AN INSTITUTION OF HIGHER EDUCATION. FIRST-TIME STUDENTS ARE INCLUDED IN THE APPROPRIATE "TOTAL, ALL STUDENTS" COUNTS.

Survey Background

The *Education Directory, 1977-78, Colleges and Universities*[1] was the source for the list of institutions included in the survey on which this report is based.

Institutions of higher education (or the individual branches of multi-campus institutions) included in this report are classified as either 2-year or 4-year institutions, with universities as a separate subclassification of the latter. The 4-year institutions are those that offer programs extending at least 4 years beyond high school. They comprise all institutions that grant bachelor's or higher degrees or some recognition equivalent to such degrees; e.g., ecclesiastical recognition in theological institutions. Some 4-year institutions also offer organized occupational programs of less than 4 years that result in an associate degree or some other recognition of completion such as a certificate or diploma. Universities are those institutions that place considerable emphasis on graduate instruction and have at least two professional schools that are not exclusively technological.

The numbers of institutional units in the fall 1977 survey, and for comparison in the fall 1976 survey, are shown in the table below. For the convenience of the reader, the questionnaire, instructions, and definitions used in the survey are reproduced in appendix B of this report. Complete data were received for all but two of the 3,130 units in the survey. For these two institutions, the 1977 total enrollments reported in the institutional characteristics survey were entered in the appropriate cells of the questionnaire.

QUESTIONNAIRE EDITING

Each report form filed in this survey was compared with the report form filed by each institutional unit in the comparable 1976 survey. Large differences in enrollment patterns were accepted if reasons for them were readily apparent. If further information was needed, respondents were contacted by letter and/or telephone for verification, revision, or additions to the figures reported. These procedures undoubtedly eliminated the larger reporting errors, but the extent to which small, unrecognized errors may remain is unknown.

For the convenience of the reader as well as for ease in statistical tabulation, totals have not been rounded but are given as they were obtained—by simple addition of the figures for individual institutional units. This does not imply that totals and subtotals are accurate to the last digit. It was believed, however, that the data could be more conveniently used if the many subtotals obtained in the analysis were reported in such a way that they would add exactly to the totals. Also, in view of the care with which the data were compiled by respondents and reviewed by the National Center for Education Statistics, it seemed appropriate that the totals reflect the individual reports.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

INSTRUCTIONS AND DEFINITIONS

Before mailing this form to NCES, please detach these instructions and definitions.

GENERAL INSTRUCTIONS

Proofread the completed report before returning it to the National Center for Education Statistics.

This report should include only college-level students taking work creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate.

If exact counts are lacking for a particular category of students that should be reported, include an estimate for that group.

Do NOT fill out separate forms for extension centers. Only campuses with their own FICE code numbers should be reported on separate questionnaires. Extension students should be reported on the form for the main campus.

Do NOT include in this report:

(a) Students in noncredit adult education courses.

(b) Students taking courses at home by mail, radio, or television.

(c) Students enrolled only for "short courses."

(d) Auditors.

(e) Students studying abroad if their enrollment at the reporting institution is only an administrative record and the fee is only nominal.

(f) Students in any branch campus or extension center in a foreign country.

(g) High school students taking college courses.

(h) Students known to be enrolled concurrently at another college or university, if the latter will report their enrollment (to avoid double-counting). Normally, the institution that will eventually grant the degree should report the student's enrollment.

NOTE. No matter what the calendar system, report on this questionnaire only those students enrolled and only those credit-hours being earned during the FALL TERM.

If you need CLARIFICATION of any item on the questionnaire that pertains to fall enrollment, please call the Survey Director, Mr. Andrew Pepin, NCES, (202) 245-8392, in Washington, D.C.

DEFINITIONS

UNDERGRADUATES. Students enrolled in a 4- or 5-year bachelor's degree program, in an associate degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate.

CLASS LEVEL. Whether first-year, second-year, etc., should be determined in a logical, consistent, and identifiable way. Usually, a student's class level would be based on the proportion of total requirements he has obtained toward the completion of the degree program in which he is enrolled, according to the number of years normally required to obtain them.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attended ANY college. Include students enrolled in the fall term who attended college for the first time in the summer of 1977. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshman level.

OTHER FIRST-YEAR. First-year students who entered the institution before the summer of 1977.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses in regular classes with other students.

UNDERGRADUATE LEVEL. Includes but is not limited to undergraduates who cannot be classified by class standing: for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

POSTBACCALAUREATE LEVEL. Includes but is not limited to "special" and other students taking first-professional or graduate courses but who are not working toward a degree.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the field of medicine, law, and theology specified in Part A of NCES Form 2300-2.1, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are working toward a master's or doctor's degree.

FIRST-YEAR. Graduate students who have completed less than one full year of required graduate study.

BEYOND THE FIRST YEAR. All graduate students who have completed at least one full year of graduate study toward a master's or doctor's degree.

FULL-TIME STUDENTS. Those whose academic load-course work or other required activity is at least 75% of the normal full-time load.

NORMAL FULL-TIME LOAD. Usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them.

FULL-TIME-EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students (lines 15-28) into full-time equivalents by one of the following:

(1) Use a method already employed in your institution to compute FTE's for some other purpose.

(2) Sum the credit hours for part-time students and divide by the normal full-time credit-hour load. Note: Divide by the normal, or average, full-time load, not by the minimum full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 (75%) or more of a normal full-time load should be classified as a full-time student.

NORMAL FULL-TIME CREDIT-HOUR LOAD (column 15). Usually determined by dividing the total number of credits (lines 1-13) required for completing the program by the number of terms normally required to obtain them. Do not confuse this with the minimum number of credit-hours required for a student to be classified full-time (75% of a normal full-time load).

TOTAL CREDITS ENROLLED FOR (column 16). For each line on the form, the total number of credit-hours accounted for by the total (head-count) number of students reported in columns 13 and 14. This count should be determined by the level of the student NOT by the level of the course he is taking.

RACIAL/ETHNIC CATEGORIES.

The shading in columns 1-12 indicates that NCES is not requiring completion of those columns. The format from the 1976 questionnaire has been retained, however, for the use by State education agencies, central systems offices, and other units that would ordinarily be collecting these data anyway, and so that institutions with computer-generated data bases can utilize the programming developed to produce the data for the 1976 form.

The following five racial/ethnic categories are utilized in the survey:

Black Non-Hispanic
American Indian or Alaskan Native
Asian or Pacific Islander
Hispanic
White Non-Hispanic

In addition, non-resident aliens, i.e., those members of the aforementioned groups who have not been admitted to the United States for permanent residence, should be separately identified as a sixth category; the non-resident aliens are not separately requested by racial/ethnic group, but only in totals.

The definitions for these categories are:

Non-resident alien. A person who is not a citizen of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, non-citizens who have been lawfully admitted for permanent residence (and who hold a "green card," Form I-151), are to be reported in the appropriate racial/ethnic categories along with United States citizens. Non-resident aliens are to be reported separately, in the columns provided, rather than in any of the five racial/ethnic categories which follow.

Black, not of Hispanic Origin: A person having origins in any of the black racial groups of Africa.

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America, and who maintain cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race.

White, not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic group.
